

NOVEXX Solutions is celebrating a successful first year.

NOVEXX Solutions celebrates its first anniversary with new ISO Certification according to 2015 guidelines and many new products in the pipeline.

On the first of June last year NOVEXX Solutions began operating independently which was former known as Avery Dennison's division IPA 'Industrial Print & Apply'.

A lot of things happened during this year and the latest news just took place a few weeks ago. As one of the first companies in Germany we got the **certification by the new ISO 9001:2015 revision**. This means that we did not only manage the recertification process but we were able to achieve the certification by the new 2015 norm. This was possible as we questioned our present structures and further developed our quality management to meet the latest innovative industrial standards. It shows that despite of the corporate reorganization we have an efficient structure with lean processes and we can guarantee a good quality of our products.

Furthermore an important component of our business strategy is to expand our product portfolio. Last year the industrial labeling System ALS 209 was launched, which makes the application of extremely wide self-adhesive labels up to 229 mm possible (like used in the chemical industry or in the personal care sector). Also the development of a Plug-In for the direct connection of NOVEXX Solutions Print & Apply Systems to the ERP System SAP was a major innovation.

Our second year as well starts with many new products:

After the summer break the new **Thermaltransfer Printer XLP 504** in the same class as the AP5.4 with matching consumables will be released and our new **XTP Label Tag Printer**, a powerful printer especially for tickets, cards and blisters will be launched soon.

About NOVEXX Solutions GmbH

NOVEXX Solutions stands for excellent products and individual integrated solutions when it comes to industrial labeling and identification along the supply chain. As a former business division of Avery Dennison, NOVEXX Solutions combines the 50 years of first-class know-how of a global player with the uncomplicated flexibility of a medium-sized company. The NOVEXX Solutions product and service portfolio comprises hard and software solutions, first-class consumables and a competent on-site service. NOVEXX Solutions is represented at eleven locations worldwide on three continents.
