

NICELABEL SOFTWARE

Intelligent label design software to create, manage and print your own labels.

PROFESSIONAL LABEL DESIGN SOFTWARE FOR IDENTIFICATION OF YOUR PRODUCTS

To meet efficiencies, products must be tracked, identified, stored and shipped effectively. Nicelabel software gives you the ability to produce on-demand customisable labels to meet all these requirements and more. It's also available in 29 languages.

Up-to-date information from your database can be utilised with Nicelabel to produce high quality labels for compliance, shelf-edge labeling, branding or pricing information, including:

- Up-to-date identification standards
- All contemporary bar codes
- Checksum calculation
- Unicode
- RFID

LABEL DESIGN MADE SIMPLE AND EFFICIENT

Label layouts are highly customisable; you can combine text, paragraphs, barcodes and graphics as required, working with fixed or variable values. You also receive a whole range of pre-formatted design elements and works with wizard, enabling rapid and customisable label production.

The database assistant allows you to create and edit databases, simplifying the process of importing and maintaining data. Whether you're working with a stand-alone system or network, Nicelabel has specifically developed drivers to ensure you can print the labels you need, whenever you need them.

DESIGN INDIVIDUAL LABELING APPLICATIONS

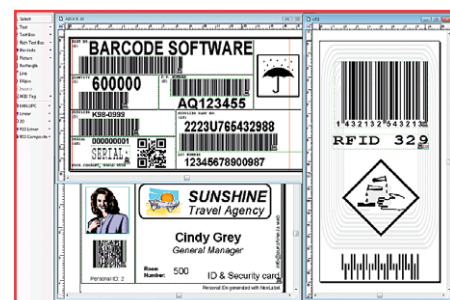

Nicelabel now has separate versions including Nicelabel PowerForms giving greater customer flexibility in designing screen forms. A simple user interface enables problem-free input of variable data without the need for additional training. Desktop, Web, and Cloud options are available.

COMPLIANCE LABELING DESIGN

The printing of production and logistics labels in accordance with industry-specific requirements for consistency is straight-forward with Nicelabel. Data from any standard database can be imported and user-defined print formats created to ensure consistency for compliance labeling.

SYSTEM INTEGRATION

Nicelabel is exceptionally flexible and offers a wealth of integration methods to work with your existing systems. Automation enables the software to be controlled from any Windows application. It is possible to print from any network system and even from devices linked via TCP/IP or serial interfaces. Microsoft certified including Windows 8 certification.

NICELABEL SOFTWARE

TECHNICAL INFORMATION

LABEL DESIGN SPECIFICATIONS	POWERFORMS DESKTOP	DESIGNER PRO	DESIGNER STANDARD	DESIGNER EXPRESS
Easy-to-use and multi-language wizard-based user interface	•	•	•	•
Standard and multi-language (Unicode) label design tools	•	•	•	•
Extended label design elements and additional tools for paragraphs, text adaptation, rich text format, Label Inspector	•	•		
All standard graphics elements are supported (e.g. JPG, WMF, BMP and many more)	•	•	•	•
Clip art gallery and fonts with industrial symbols	•	•		
Print preview saves time, labels and money	•	•	•	•
NiceMemMaster - module for downloading fonts and graphics	•	•		
Barcode and RFID support				
All standard barcodes, 2-D, UCC, GS1-128, linear and composite GS1 DataBar	•	•	•	•
Support for the newest 2-D symbols including PDF 417, Data Matrix, MaxiCode, etc.	•	•	•	•
Advanced support for AIDC standards like ASC (FACT), HIBC, Transfer Syntax and barcode compliance proofing	•	•		
Support of RFID smart labels (including EPC Gen2)	•	•		
Database and data processing				
Prompted fields with data validation	•	•	Limited	Limited
Counter, value transfer and conformance	•	•	Limited	Limited
Date and time fields in various selectable formats	•	•	•	•
Linked fields and Visual Basic Scripting for advanced data processing	•	•	•	
Link label fields with databases	•	•	•	Limited
Import of text (ASCII, CSV) and Excel files import of data from MS Excel (e.g. CSV) or ASCII text files	•	•	•	•
More than one database connection, integrated query generator and freely definable SQL scripting	•	•		
Wide assortment of selection and filter facilities for data sets	•	•	Limited	Limited
NiceData - database manager	•	•		
Label printing				
Print to all office and label printers (locally or via a network)	•	•	•	•
Stand-alone printing support	•	•	Limited	Limited
NicePrintQueue - the print job manager module	•	•	•	
NicePrint - simple and efficient printing application	•	•	•	
NiceForm - front-end application designer for desktop and mobile label printing (Basic module EasyForm is available with NiceLabel Pro. PowerForms module includes full form capabilities)	(PowerForms mode)	(EasyForms mode)	•	
QuickPrint	•	•	•	•
Integration, ERP & WMS connection				
Internal command language (print file, command language options, DDE)	•	•	•	
API programming interface (ActiveX, .NET)	•	•	•	
Label format export to SAP R/3 (ITF files, user-defined and many more)	•	•		
Middleware integration module (network printing; non-Windows systems and other applications such as WMS, inventory, etc.) - NiceWatch	•			
System management and further editions				
User login protection, label locking and revision history (Full support for revision control system and workflows is available with NiceLabel Control Center)	•	•		
Print only edition	•	•	•	
Network edition (multi-user licensing, also suitable for Citrix and Terminal Server environments)	•
